Details

Description

Professional spray-extraction cleaner for medium-sized areas. The fresh water tank with filter element allows long periods of operation and protects the pump from contamination. The robust, compact housing made of durable plastics makes the unit lightweight and easy to carry. Two large wheels and two castors for excellent manoeuvrability. Pushbuttons for spraying and vacuuming mode are conveniently positioned on top of the unit for easy access. The easy removable, transparent suction dome enables to check the recovery performance at a glance. Defoamer tank in cover ensures that maximum use is made of dirt water tank's capacity. Service-friendly, rubber-mounted pump and fan module.

Features & Benefits

Improved cleaning performance

Storage compartment for cleaning agent tablets

Versatility of use
